

Vaccinate.

Because of the prevalence of small pox in many sections of Kentucky the question of general vaccination, which has been under consideration by the local authorities, has taken definite form in action under section 2055 of the Statutes of Kentucky and a strong appeal to all citizens to be vaccinated at once. The Earlington Board of Health asks that every citizen of Earlington, with their families, be at once properly vaccinated, and calls on the people for hearty co-operation. Doctors Davis, Mothershead and Chatten have been appointed to do the work, and a supply of fresh vaccine points has been provided. The city will bear the whole expense of the work and only asks that citizens allow themselves to be given this easy and harmless protection against a dreadful disease that has become alarmingly prevalent in many localities during late years and may be encountered at any time.

The protection afforded by a proper vaccination lasts not for a day only but for many years. The facilities now afforded by the Earlington Board of Health are the best that science can provide and the protection is offered free. A little arm-soreness and itching and slight ill feeling is all the discomfort that usually attends a vaccination such as is now provided and the people have nothing more serious to fear than a little temporary discomfort, which, weighed against future comfort and immunity from disease, is as nothing.

This is not a pleasure to the Board of Health; it is simply the conscientious performance of their official duty under the law. Many Kentucky towns, including the State metropolis, have enforced compulsory vaccination, and it is not a new thing by any means. It is to be hoped that all the people will sink their personal repugnance to a slight arm-scratch out of sight and give cheerful compliance to the request of the Board of Health. The City Fathers have set the example by being first vaccinated themselves.

Back to Earlington.

Mrs. J. E. Gillespie and Louis Weber, her son, have come from Spokane, Wash., to make their home in Earlington again after an absence of a number of years. Mr. Weber left here twenty-two years ago. He was then about eighteen years of age. His father was bookkeeper for the St. Bernard Coal Co., and the son had done clerical and store work for that company. Mr. Weber has been now engaged at bookkeeping for the St. Bernard Company. Mrs. Weber and child will join Mr. Weber here soon, they having stopped in Nebraska for a short visit to her mother. Mr. Weber and Mrs. Gillespie are now at the home of Mr. James R. Kash.

How Thackeray Wrote of Death.

The following is taken from a letter of condolence written by Thackeray to Mrs. Proctor on the death of her mother, shortly before Thackeray's death. The letter is found in the biographical introduction to *Doris Duval*, the twelfth in the valuable biographical edition of Thackeray's complete works, published in the United States by Harper & Brothers, and shows the earnest and sublime, not the cynic, the satirist that so many have considered him. The introductions to the thirteen volumes of this new edition constitute the only biography in existence of Thackeray.

"Thinking of death," says Thackeray, "is thinking of God in a scrutable, immeasurable, endless, beginningless, supreme, awfully solitary. Little children step off this earth into the infinite and we tear our hearts out over their sweet cold hands and smiling faces, that drop indifferent when you cease holding them, and smile as the lid is closing over them. I don't think we deplore the old, who have had enough of living and striving and have buried so many others and must be weary of living—it seems time for them to go—for where's the pleasure of staying when the feast is over, and the flowers withered and the guests gone? Isn't it better to blow the light out than sit on among the broken meats, and vapid heartbeats? I go—to what I don't know—but to God's next world, which is His and He made it. One paces up and down the shore yet awhile and looks toward the unknown ocean, and thinks of the traveler whose boat sailed yesterday. Those we love can but walk down to the pier with us—the voyage we must make alone. Except for the young or very happy, I can't say I am sorry for any one who dies."

RANGERS AND HATREDS.

Cubans are Not Willing to Let Deeds Done During the War Pass as Bygones.

THEY ARE APPEALING TO THE COURTS.

Gen. Brooke, at the suggestion of the head of the department of justice, will put a quietus on all such proceedings and order all persons arrested released.

Havana, March 25.—That the Cuban and Spanish rangers and hatreds, the outbreak of the war conditions, are still actively pursued in Cuba, is evidenced by a communication recently sent to Gov. Gen. Brooke by Senor Lanuza, head of the department of justice and public instruction. He says it is a matter of daily occurrence that in different parts of the island proceedings are taken against those who belonged to guerrilla and other Spanish forces during the war for crimes imputed to them have been committed at that time. Cuba's peace, Senor Lanuza adds, "requires that this be stopped."

Madness Trouble Would Ensnare.

Continuing, he says: "If we open the door to such accusations, we should soon have a series of actions against Cuban leaders, and resident Spanish soldiers, which would constitute a continuation of the war, but with other arms. The Cuban army, under the necessity of war, burned property and seized food and clothing. The Spaniards did similar things. These men should not now be prosecuted in the courts for actions committed in war times. Cuba must forget the past. Such prosecutions disturb the country's reconstruction. The matter should be handled at the root, by ordering them to cease all prosecutions."

Gen. Brooke Will Take Action.

Following the suggestion contained in Senor Lanuza's letter, Gov. Gen. Brooke will issue a decree to the effect that the civil and military judges must not recognize and must dismiss all present and pending actions against troops in the field or against Spain during the war for acts committed then.

Further, the governor general will order the immediate release of all men now held in custody on such charges.

The subjects are: "Why I Am Not an Infidel," "Why I Am a Christian," "Why I Am a Baptist," and "Why I Am a Third Church Baptist." He walked inside the saloons and delivered the cards in person to the barkeepers and others in the several places. It was not generally known that he had made the visits until after he had completed his rounds, but it was generally commented on.

George Stillier Dead.

George Stillier, a promising and popular young man of Nortonville, died at that place Thursday last and was buried Friday. Mr. Stillier was formerly of Henderson and at one time did local work on the Henderson Gleaner. He has, since his residence in Nortonville, corresponded for the local press. For some time, too, he was in charge of the baggage business of the Illinois Central Railroad at Nortonville, but has since been engaged in other business. He has been in ill health for some time. A young wife survives him who has the deepest sympathy of their many friends at Nortonville and elsewhere.

Wonderful Discovery.

LUNFORD, ALA., April 15, 1898. New Spencer Medicine Co. Dear Sirs:—I have been troubled with liver and stomach complaint, I had no appetite and my general health was very bad. I took medicine from four different doctors and they failed to do me any good. I got no relief until I began to use your valuable Nubian Tea. I used about two dollars worth of it, and it did me more good than all the medicine I ever took. I have gained thirty-five pounds in weight and my health is very good. I can sleep soundly and my appetite is excellent. I can recommend your Nubian Tea to the world as being a God-send to any community. Any one who doubts this statement can write to OSCAR BAKER. Sold by St. Bernard Drug Store.

Bad Roads.

Road improvement has begun here. H. S. Corey, farm superintendent for the St. Bernard Coal Company, put twenty-eight wagon loads of brick bats and rubbish into a single hole on the St. Charles road at the head of Loch Mary Thursday Friday and last and ten wagon loads into another hole. This is a pointer on the present very numerous mudholes on the best dirt roads of the county. What is to be found on the bad roads of the county that know not the grading machine, but only get an annual back-scratching from the hoe of the swain who works the road to save his taxes and escape a fine—is bottomless and fathomless.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular size 50 cents and \$1.00. Trial bottles free at St. Bernard Drug Store every bottle guaranteed.

An immense stock of Clothing, Dry Goods and Shoes will be opened by the Grand Leader merchants at Madisonville this week and will be ready for inspection Saturday April 1st.

THIRD KENTUCKY

Has Been Invited to Bowling Green, But Will Probably Muster Out at Savannah.

A special from Bowling Green to the Courier Journal says: "It is practically certain that the Third Kentucky regiment, if mustered out in this State, will be disbanded in this city. The War Department has given assurances of this, and it is almost certain that the muster-out will take place in Kentucky. Before the regiment gets to this country the weather will be amply warm for camping in tents. If there is a chance for the regiment to be mustered out at any of the coast cities this place will make no fight, as the soldiers feel that they would get much more pay for transportation. An address inviting the regiment to Bowling Green has been drawn up by a committee and forwarded to the soldiers at Matanzas, Cuba.

Regiment Prefers Savannah.

A letter to the Courier-Journal from a member of the Third Kentucky says the members of the regiment are almost unanimous in desiring to be mustered out at Savannah. It is not a matter of sentiment with the soldiers, but purely one of dollars and cents. They figure it out this way:

"If we are mustered out at Savannah, our travel pay would be \$32.80. Our fare from there to our homes would be on an average \$15, leaving to each man \$17.80. Not only would we lose this if mustered out at Lexington, but each man would have to pay fare to his home."

Third Kentucky to Come Home by April 1.

Washington, March 27.—The Third Kentucky will reach Savannah by April 1. The Quartermaster General said this morning that the Logan unloaded the Third Georgia at Savannah yesterday, and started back for the Third Kentucky this morning. The regiment is collected and is awaiting the transport. It will be mustered out at Savannah.

ANTIOCH, MISS., July 1st, 1898. New Spencer Medicine Co. I want to tell you what I think of your Nubian Tea. I have used it myself and in my family, and it is all that you claim for it. It is the best Liver Medicine I ever tried. It is just the thing to take if you feel bad and are bilious.

Mr. Faull in Arizona.

From the Arizona Silver Belt published at Globe, Ariz., of date March 16, we quote the following notice of our friend Geo. H. Faull, of St. Charles, who has been in California for some time, but is now returning to Kentucky:

Geo. H. Faull, brother of Joseph and J. P. Faull, arrived yesterday evening from Los Angeles. He had not seen his brothers for thirty years.

Mr. Jas. P. Faull is also a mining man and the paper quoted from speaks of his just now having escorted some mining men from Denver on a tour of inspection of the "coal and copper deposits on the San Carlos strip with which they were favorably impressed."

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drugstore there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends and it has a constant demand for it from that part of the country. For sale by St. Bernard Drug Store, Earlington, B. F. Robinson, Mortons Gap; George King, St. Charles.

You will be able to buy goods cheaper of the Grand Leader, in Madisonville, than any trading place in Hopkins county, as this is only a branch of sixteen other stores that are scattered over this State.

Important Health Notice.

To whom it may concern:

Whereas, The prevalence of Small Pox, in sections of country not far removed from Earlington, impels your Board of Health, under Section 2055 of the Statutes of Kentucky to take prompt measures to keep the dreaded and loathsome disease out of the town. To this end they ask the hearty cooperation of citizens generally.

Your Board of Health, acting for the best interests of all concerned, deem it right and proper that each and every citizen should at once be properly vaccinated.

THE COST OF LABOR.

How It Is Reduced Without a Decrease in Wage Rates.

From the New York Sun. We have not as a people begun to realize until recently the full truth and meaning of the economic axiom that the cost of labor is to be measured not by the wages paid but by the value of the product. We may pay much higher wages than any country of Europe, but the labor cost of our manufactures is less than those of Europe, because by superior machinery and more highly trained skill in managing it, one of our workmen can turn out a better product and a good deal more of it in a day.

Last year, when a Philadelphia iron firm underbid British manufacturers for the supply of 1,000 tons of iron piping to the City of Glasgow, it was surprised by Glasgow's astounded City Council that the Philadelphia firm was paying smaller wages to its workmen. It was found that higher wages were paid to American workmen, who, however, produced, per man in the same time, over twenty-five per cent more piping than the British. The Americans could sell their product in Glasgow, 3,000 miles away, at the smaller price.

Mr. Jeans, secretary of the British Iron Trade Association, said recently that the labor cost of making billets and rails in America is now from 25 to 35 per cent less than in Great Britain.

Operatives making a certain grade of shoes in Massachusetts receive three times the wages of German operatives, but our shoemaking machinery has reduced the cost of the American product to 40 cents per pair, while the same grade of shoes made in Germany costs 58 cents a pair.

This country is competing successfully with the rest of the world, not by demanding from its workmen twelve hours' labor at meager wages, but by using well-paid labor and the best machinery to improve the quality and increase the quantity of its products. We are increasing the economy of labor without reducing the wages of the artisan.

BAND VISIT POSTPONED.

Bad Roads Will Prevent Early Visit From St. Charles Band.

Store House Broken Into—Good Health—New Band Stand.

St. Charles, Ky., March 29.—(Special)—Because of the very bad roads the visit of the St. Charles Cornet Band to Earlington, which was expected to be made on the 1st of April, will have to be postponed to a later date which cannot now be definitely suggested. However, the band expects to make the visit as early as circumstances will permit. Prof. Jack Mitchell, under whose instruction the band is making rapid progress, has arranged the popular song, "She Was Bred in Old Kentucky," especially to suit the St. Charles Band and this selection will be played and sung in the regular Saturday evening concert at St. Charles. A choice program has been arranged for Saturday evening next, including the very popular selection, "Lullaby Watch." The band will visit Crofton the last part of April and give that thriving Christian county town a sample of what a coal miners' band can do when they try.

The store house of Mr. Fox, lately occupied by E. Balder, was broken into Sunday night. The burglars got three cans of salmon, two cans of tomatoes, one plug of tobacco and one piece of underwear. The blood hounds have not yet arrived.

Bad weather and good health don't agree but this combination is in effect in St. Charles just now.

The proposed band stand from which our citizens are to be treated to weekly open air concerts by the St. Charles Band, is sprouting.
